

Leading Semiconductor Provider Reduced Operational Costs by Partnering Fuji Xerox

Leading Semiconductor Provider

Fuji Xerox Solution

- Propose and implement FXS Onsite Scanning Services
- Formed a 4-operator team (rotating 24/7 shifts) to provide scanning services
- Implemented a High Volume Scanner with Capture and Recognition software to enhance operator productivity to scale from previous 7-man team to FXS 4-man team
- Provide Secure Document Service to customer on a weekly basis to shred the scanned Lot Travelers

Client Challenges

- Traveler documents generated daily (8-9k pages) to track production activities must be archived and produced upon customer request
- 7 operators to man MF Copiers and convert these documents into softcopy
- The high volume scanning activity took up valuable operator manpower and requires constant monitoring by Quality Assurance Department

Client Benefits

- Client can now focus on their core production activities without having to worry about these scanning operations
- Client enjoys a reduction in operating cost (7 vs 4 man scanning team)
